HALERS H4 FF

ADJUSTABLE DOWN LIGHT

SPECIFICATION SHEE

The HALERS H4 FF is the perfect non fire-rated LED replacement for LV and GU10 down lighters. The housing has been designed to retro-fit difficult holes with a large cut out range of between 65mm-80mm. Available in neutral and warm white, 38° beam angle and integral driver. This LED fitting is ideal for those residential and commercial applications.

Features	Benefits
° Tilt/Adjustable	° Custom output angle
° Integrated LED driver	° Straight to mains connection
° Driver on 150mm flying lead	° Flexibility during installation
° Retaining clips	° 5-15mm ceiling thickness
° Unique lens design	° 90% efficient lens
° 38° beam angle	° Wide spread of light
° Mains dimmable	° 0-100% dimming control
° Flexible cut-out size	° Fits a 65mm-80mm cut-out
° Double insulated	° No earthing required
° 570lm output	° Brighter than a 50W Halogen
° Low power consumption	° 8.5W power consumption
° Soft start	° Gradual increase in light output
° Safety Extra Low Voltage (SELV)	° Increased safety in vulnerable environments
° Max CRI 85 (WW)	° Excellent quality of light
° Meets building regulations	° Part L compliant
° Anodised aluminium 6063 bezel	° Attractive high quality appearance
° Flying mains lead fitting	° Fast installation time

Product Data			
Product code	DLFF 38 XX NW DIM	DLFF 38 XX WW DIM	
Colours available (LED)	NW	ww	
Colours available (fascia)	White / Silver		
Photometrics			
Beam angle	38	38	
Colour temperature (K) ±175k	4000	3000	
CRI (colour rendering index)	70	85	
Life of LED (hrs)	75,000	75,000	
Luminous flux (lm)	570	470	
Wattage (W)	8.5	8.5	
Luminous efficacy (Lm/W)	68	55	
Lux @ 1m (lx)	1700	1200	
Wiring			
Accessories	DM GRID 500		
Drivers	700mA mains dimming driver built in		
Cable/flying lead (mm)	150		
Type of wiring required	Parallel (mains)		
Power Factor	0.92		
General			
Bathroom zone	N/A		
Construction material (body)	Anodised silver aluminium 6063 (silver) - White painted aluminium 6063 (White)		
Cut-out (mm)	65-80		
Face temperature when lit (°C)	50		
IP rating	IP20		
Rotation angle (°)	N/A		
SELV (safety extra low voltage)	Yes		
Tilt angle (°)	±20		
Warranty (yrs)	1 (7 year extended warranty applicable)		
Weight (g)	266

ADJUSTABLE DOWN LIGHT

SPECIFICATION SHEET

Relux output NW

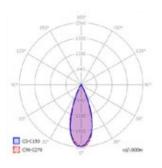

Example installation - $6 \times 3 \times 3m$ room.

Lux level required - 500lx on workplane

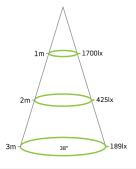

Results.

HALERS H4 FF (NW) - \times 16 units required = 136W Typical 50W GU10 - \times 36 (1800W) - Save 1660W

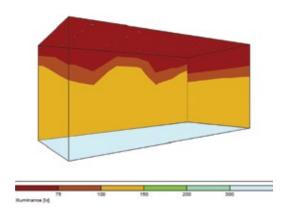

Polar curve NW 38° beam angle

Cone NW

Relux output WW

Example installation - $6 \times 3 \times 3m$ room.

Lux level required - 500lx on workplane

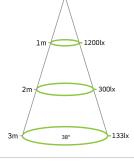

Results.

Halers H4 FF (WW) - \times 25 units required = 212W Typical 50W GU10 - \times 36 (1800W) - Save 1580W

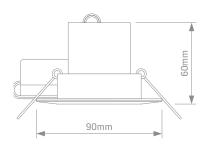

Polar curve WW 38° beam angle

Cone WW

Dimensions

Halers Lighting publish the exact light output details of our fittings, which are confirmed by independent 3rd party test houses, including LUX-TSI (UK), and The Lighting Industry Federation (UK). We test the 'Absolute Photometry' (LM79) at room temperature, of the complete fitting. We believe that independent testing is the only solution to provide consumers with absolute confidence in our products. This has been driven by the current trend within the LED market for publishing unverified and misleading results.
